WHAT IESTEY PROVIDES

Internship

Foundational

The Foundational Internship offers hands-on training with gamified learning in AI, ML, and Data Science, building essential skills for global careers.

Internship

Advance

The Advanced Internship provides in-depth expertise in AI, ML, Data Science, and Neuromodulation through real projects, research, and global opportunities.

We are the **future** of your Career

During the Internship, candidates can earn up to INR 36,000 monthly in stipend or fellowship based on performance. Post-internship, receive direct placement assistance abroad (USA, Europe, or chosen countries) with packages from \$1,000 to \$3,000 monthly. Join based on merit or explore our "Learn and Earn Mode." Register now to learn more about the program structure and enrollment details.
